

To Whom It May Concern,

I am writing to lodge a complaint to the FCC. I understand that Sinclair Broadcasting has made a decision to have all their stations air an anti-Kerry documentary days before the election. I am concerned that this is a clear intention of breaking the law.

Sinclair Broadcasting uses the public airwaves free of charge, and is obligated by law to serve the public interest. As a large media company Sinclair will be controlling the airwaves. If they present only one side with this documentary we the people are being feed propaganda. The large media giant begins controlling what I see and hear. I feel it is a threat to our democracy and no longer serves the greater good.

Please take action in regards to Sinclair's responsibility to the public by strengthening media ownership rules and taking action if Sinclair decides to break them. This is a blatant example of the dangers of media consolidation.

Sincerely
Liz Koch
